Peterborough Transport Pathway

- § Colin Clarke (XCG) met with Richard Straka (City of Peterborough) on December 4, 2009, on site.
- § Flowing culvert (south pipe) and storm pipe (north) were both located and coordinates mapped with GPS.
- § No obvious source of water for flowing culvert:
 - Riverside Creek? Wetland area? Water or storm discharge?
- § Richard is working with Public Works to find source – no word to date.
