SPC 2010-08-20-07

By consensus the Committee agreed that Rosemary Kelleher-MacLennan, Bruce Craig and Bev Spencer be the Source Protection Committee Representatives on the Review Committee

Five staff leads from each of the Source Protection Areas will sit on the Review Committee.

Considerations:

- Early Response information mail outs about drinking water stewardship program can happen concurrent with the *Notice of Plan Preparation*.
- Under Program Monitoring and Reporting, staff are required to provide the SPC with project status updates at each of their meetings.
